Product Facts

Use
For removal of lice, eggs, and nits.

Directions

Getting started:
- Have on hand extra towels, bobby pins or hair clips, facial tissues or paper towels, and a regular comb for parting and detangling hair.
- Find a distraction for your child (e.g. book, TV, game).
- Shampoo hair. You may use a detangler/conditioner to make hair easier to comb or continue dampening hair throughout combing process.
- Comb out damp hair with a regular wide-tooth comb to take out snarls and tangles.

Remove lice, eggs, and nits:
- Use the RIDvantage® Lice Comb.
- Hair should remain slightly damp while removing nits. If hair dries during combing, dampen slightly with water.
- For head lice, part hair into sections. Do one section at a time starting on top of head. Longer hair may take 1 to 2 hours.
- Lift a 1- to 2-inch wide strand of hair. Place RIDvantage® Lice Comb as close to scalp as possible and comb with a firm, even motion away from scalp.
- Pin back each strand of hair after combing.
- Clean comb often. Wipe eggs and nits away with tissue and discard in a plastic bag. Seal bag and discard.
- After combing, thoroughly recheck for lice, eggs, and nits. Repeat combing if necessary.
- Check daily for any lice, eggs, or nits that you may have missed.

Other Information
- This product does not kill lice or their eggs. Use this product only after treating with RID® Lice Killing Shampoo or other similar product.
- It is important to wash in hot water [above 54°C (130°F)] all clothing, bedding, towels, and hair products (combs/brushes) used by infested persons.
- Dry clean non-washable fabrics.
- To eliminate infestation of furniture and bedding that cannot be washed or dry cleaned, a multi-use lice spray may be used, such as the RID® Home Lice, Bedbug & Dust Mite Spray.
